Managing Children.

In an article on "Whipping Children," in the last number of the *Herald of Health*, Mrs Elizabeth Oaks Smith says:

All the ancient martyrs, and heroes and great soldiers, the men and women who shame our own pusillanimity, came up under the rod, and that not lightly administered. We know that the early settlers of New England enforced the "iron rule." The men of '76 were men used in childhood to sharp discipline and the world is not likely to produce a nobler type of manhood. There is something weak and cowardly in this fear of the rod, though, when unwisely and recklessly administered, it is a fearful evil, and too often administered at an age when the reason should usurp authority if it ever will.

With us, authority is inverted, and the child, not the parents, rules the household; all its fine old dignities are lost under a mistaken fondness and a sensual indulgence. The child is restive under restraint, and, if punished, regards himself as a victim; he applies the odium to the punishment, however well deserved, and has no condemnation for the offense that occasioned it. In that feeling he is maintained by a growing, mawkish sentimentality in the public mind.

A manly boy would show his stripes manfully as an atonement for a wrong, and such a boy is not likely to repeat the offense; while your weak sniveling boy is very likely to beg your pardon ten times over, and commit any meanness to escape a whipping; and ten times over commit the same offense and end his career at last in the penitentiary.—Parents and teachers often lack self control themselves, and they magnetize children into rebellion, rage and obstinacy, and the contest descends into a regular fight for the mastery. This is pitiful in the extreme, and the child is sure to suffer great cruelty in such a crisis. Parent and teacher are only fit for their office when perfectly calm, wise, and of just mind, and sympathetic of heart. They should be capable of penetrating to the mind and heart of the child, and judging thence what may rightly be required of it.

It is wonderful how much harmony may be produced in a family by the simple methods of a calm judgment and sympathetic mind; for myself, I have always found that to lay my hand gently upon the shoulder of even a raging child, and saying, "My dear, you will do what is right," had the immediate effect to subdue him; hence, I believe that after a child is old enough to understand, he may ordinarily be controlled by reason and kindness; but where these fail to keep him up to the mark of conscience and duty, more energetic measures ought to be resorted to. The parent or teacher is culpable who allows his charge to shirk one iota of duty enjoined him, and if he does this and the boy or girl merges his future life into what is base and ruinous, the sin must lie at their door.

I do not approve of whipping; to my mind it seems a merciless and unnecessary thing—children of the better instincts rarely, if ever, require it—but these little ones, "without reproach or blot," are in the present state of society the exception, not the rule, and I am convinced that the majorities require energetic handling. They must be made to do, where they are deficient in the inner law.—Justice to the child and justice to society demands this. In extreme cases, even, I can hardly conceive that a child in his teens will need to be whipped; by that time reason and judgment ought to begin to gain the ascendency, and induce tendencies in the right direction—he should be the companion of the parent, sharing in some degree his confidence, no less than his affection, and a right minded parent would be to him the best and safest "guide, counsellor and friend."

SPARKLING
CATAWBA SPRINGS,
CATAWBA COUNTY, N. C.

THIS CELEBRATED WATERING PLACE, formerly called the North Carolina White Sulphur Springs, will be open for visitors on Monday, the 7th day of June next.

BEING situated in the Northwestern part of the State, in a country unsurpassed for its beauty and healthfulness—these, together with the virtues of the waters, make it a desirable and delightful watering place to be resorted.

THE MINERAL WATERS OF THESE SPRINGS
Are the White and Blue Sulphur and Chalybeate of Iron, and the properties of the two first of these waters, and are a specific in numerous cases of the diseases of the liver, bowels, stomach and kidneys, eruptions of the skin, scrofula, weakness, debility, dyspepsia, rheumatism, &c., &c.

The proprietors having spent a large sum of money in additional buildings and improvements generally, these Springs are now made one of the most popular, and good summer resorts, combining from two to six rooms each, well arranged for either large or small families.

GOOD TEN PIN ALLEYS, BILLIARD TABLES,
And other Amusements
FINE BATH HOUSES,
For Pool, Plunge or Shower Bath, Tepid or Hot or Cold.

A GOOD BAND OF MUSIC
Will be at the Springs the entire season, and a good Physician permanently located for the benefit of invalids, who will have every attention.

Having secured the services of Mr. [illegible] of Virginia, who has had much experience, and stands high as a Hotel Keeper, visitors may rest assured that no table will be supplied more than the best the market can afford, and everything done that will add to their pleasure and comfort.

The cars on the Western North Carolina Rail Road will leave Salisbury for Hickory Station, the Spring's depot, every morning (Sundays excepted) in connection with the North Carolina Railroad, avoiding stoppage or delay at Salisbury, and arrive at Hickory station in time for breakfast, where good hacks will be in readiness to take passengers over a beautiful, well shaded road to the Springs, a distance of six miles.

As an inducement for families and parties to spend two months or more, I have determined to put board down at the following low rates.

THE TRUE ISSUE.

[redacted] victory is a relief from carpet-bag rule, and that is the reason it has created so much enthusiasm."

We take this extract from a recent speech of Governor Walker, delivered to his old friends who met to welcome him to his native home. We can stand on this platform with very little modification of any opinions we have expressed since the Radical party had its existence in the politics of the State. With the exception of granting suffrage to the negroes, there is no plank in this platform but what the strictest Conservative could stand upon. Walker is a Northern man, it is true; but by his acts, speeches and writing he has shown as much loathing for carpet-baggers and scalawags as has Governor Vance or any other Conservative leader. We have accepted the reconstruction acts in good faith, and are now for any party that will drive the "Poverty and Ignorance party, organized into midnight associations," from power, and fill their places with "the virtue, property and intelligence of the State." And there will be just such a party, and it will triumph gloriously, and, in that day, Holden and his myrmidons, black and white, will call upon the mountains to hide them from the wrath of an insulted, robbed and betrayed people.

THE CONFEDERATE DEAD AT POINT LOOKOUT.—The friends and relatives of the Confederate prisoners who died at Point Lookout will be glad to learn that Mr. L. O. Smith has in his possession a correct list of all those who were buried in the Cemetery set apart for the reception of their remains—This list was furnished Mr. Smith by the Surgeon of the Post before his departure. It embraces the names of all the Confederates interred in the Cemetery, each name having a number attached, which corresponds with the number on the head boards marking the graves. By this means the bodies, even now, in the dilapidated condition of the place, can be readily identified. A copy of the list is in this city, at the office of Mr. J. Wesley Smith, Secretary of the Loudon Park Confederate Memorial Association, and one of the firm of Smith & Bros., Booksellers, No. 27 West Baltimore street. It can be seen upon application.—*Balt. Gazette.*

A CAUTION TO SPECULATORS.—A case involving an important principle in the sale of property comparatively valueless, was decided by the New Jersey Court of Appeals, at Trenton, on the 19th inst. The suit was brought to recover damages resulting from an oil land speculation, in which the defendant was induced to invest upon extravagant representations of the plaintiff. The court held that where representations of benefits to accrue induced the purchase of property, the entire loss sustained must be made good. Agents who are engaged in the sale of bonds and stocks of incorporated companies, whether they be for producing oil, for mining, for railroads, canals, banks, insurance, or other purpose, projected and under way, and who are making many florid promises as to the value of the works to induce subscriptions, may find it to their profit to hold this decision of the New Jersey Court of appeals in remembrance.

STATE NEWS.

ACCIDENTAL SHOOTING.—We regret to learn that our young townsman, Master Clem Manly, was accidentally shot at Hillsboro, a few days ago. The wound is in the thigh and is considered serious.—*Journ. of Com.*

WHAT DOES IT MEAN?—We heard an official high in the confidence of the Lieutenant-Colonel commanding the detailed militia tell a darkey yesterday, that though there was nothing transpiring at present, such a state of things would not last long, and very plainly intimated that "war's rude alarum's" would soon shock this section.

Is the official in question posted by "the powers that be," or was "the wish father to the thought."—*Ib.*

A VETERAN IN REGIMENTALS.—At a school exhibition in Lenoir county, a day or two ago, Mr. Curtis Phillips, a veteran of the war of 1812 attended, dressed in full regimentals. The uniform of this old soldier was formed of cotton goods, spun, wove and made for him in the year mentioned, by his mother, and was in a wonderful state of preservation, being white, whole and apparently new. It was the regular dress uniform of his regiment from North Carolina.—*Ib.*

Ex-Senator Wade, of Ohio, formerly President of the United States Senate, expressed himself at Knoxville, last Thursday, as being in favor of Senter for Governor of Tennessee, and his policy of white enfranchisement and reconstruction.

The National Camp-Meeting.

ROUND LAKE, July 16.—The National Methodist Camp-Meeting closed this morning, and the encampment is rapidly breaking up. A great number left yesterday, the trains of sixteen passenger cars each, being crowded to their utmost capacity. The regular exercises terminated at 8 A. M. with a procession composed of all the preachers and church-members, who marched around the circle singing camp meeting hymns and bidding each other farewell. The last sermon was preached last night by the Rev. G. L. Taylor, of New York, the subject being "Sanctification of the Church." Prayer-meetings were kept up until a late hour of the night, and early this morning a class-meeting, at which new converts narrated their brief Christian experience and were counselled by the preachers, was held in the altar.

The delay incident to the removal of the many families and their baggage will detain many until Monday, and irregular services will be held from time to time until all are gone, but these will possess no particular interest except the few participants in them. It is estimated that over 100,000 visitors and 400 preachers have been on the ground since the commencement of the meeting, and on Sunday last there were over 30,000 present at one time. The meeting throughout was characterized by perfect good order and the total abstinence of those excrescences which usually attend such gatherings. It is a noteworthy fact that there were but two intoxicated persons seen on the grounds during the ten days, and these arrived in that condition on the train. No noisy idlers disturbed the exercises, and, to the surprise of all, the attendance of the *demi-monde*, who generally flock out from adjacent cities to a camp-meeting, was unnoticeable, except, perhaps, in one or two instances, to the police.

The religious exercises have been widely different from those of similar occasions hitherto. The object of the meeting seems to have been the perfecting of the Church in holiness rather than the conversion of sinners, and this no doubt accounts for the comparatively small number of converts. No record was kept of those professing forgiveness of sin, but it is estimated that they will not exceed one hundred. Nearly all the sermons were upon the subject of holiness, and exhortations to sinners were exceptions to the general rule. Sanctification was discussed and enjoined from the stand by all the leading preachers present, and the prayer meetings were in almost every instance conducted with the same object in view. The purpose of the annual national camp-meeting is to stir up the Church to its Christian work, and send out the preachers and members who assemble there into all sections of the country with renewed zeal for enlarging and perfecting the Church. The thorough theological education of ministers, and the total abstinence from the use of tobacco, which is characterized as debasing in its effects and unbecoming a devout Christian, were enjoined upon all no less than perfect sanctification, and a great many pledged themselves to abandon chewing and smoking altogether.

The subject of reuniting the northern and southern wings of the Methodist Episcopal Church was occasionally discussed among the clergy, but without any definite result. An attempt was made some time ago to effect a reunion, and Bishops Simpson and Janes visited St. Louis to consult with the southern bishops on the subject. The reception of the two bishops and the friendly tone of the conversation encouraged the hope that now, since slavery, on which the Church split, had been abolished, the Church would soon be reunited; but the official reply of the southern bishops, communicated after the termination of the conference, was so bitterly sectional that it not only destroyed all prospect of a reunion, but mortified the two northern bishops who initiated the undertaking. Since that time there has been no attempt at bringing the two wings together, and it is not probable that another effort will be made very soon.

It has not yet been decided where the next national camp-meeting will be held, and no final decision will be made until next fall. Each section of the country is inviting the National Committee to locate next year's meeting in their respective localities, and some of them offer extraordinary inducements in the way of accommodations. A new camp-meeting association in New Jersey has just purchased a tract of 130 acres on Shark river, near its mouth, and proposes to make an additional purchase, so as to obtain 500 acres, with a long sea beach. The grounds are to be handsomely laid out, and it is reported that some of the members of the National Committee are in favor of accepting their invitation to hold the national camp-meeting there next year.

The Round Lake Association will hold its camp-meeting in September, and will have for its object, as is usual with such assemblages, the conversion of sinners.

A colored woman, while picking blackberries near Grenada, Miss., was killed by a panther.

In Cuba there are 600,000 blacks, free and slaves, nearly all of whom favor independence.

A GREAT BORE.—They have been three years boring an artesian well near St. Louis. The depth reached is 3,882 feet, or only 138 feet less than three-fourths of a mile. But no pure water has been reached at that depth, and it is now proposed to plug the whole up and lose $66,000, the cost so far. The boring was done at the rate of about 30 feet per month. The artesian well at Grenoble, in France, is one of the most famous in the world, and was begun in 1833, with the expectation of reaching water at a depth of not more than twelve or fifteen hundred feet. In 1841, at a depth of 1,792 feet, water was at last found and has flowed ever since at a rate of five hundred thousand gallons in twenty-four hours. There are numerous wells in other parts of Europe and also in this country, but the deepest one in the world, except that now under consideration, is at a sugar refinery in St. Louis, begun in the spring of 1849, and continued until 1854, when the work stopped at a depth of 2,199 feet. The supply of water procured is comparatively small in quantity, and strongly impregnated with sulphur.

A SINGULAR INCIDENT.—An industrious German of Milwaukee had, by dint of hard labor and economy, saved $500. For safe-keeping he put it in an old stocking and stowed it away behind a rafter in his house.—Some days after, the poor German was in despair to find the mice had made a nest of it. He gathered the fragments, and they made a peck measure heaping full of scraps of paper, stocking, wood, nut-shells, &c.; and what to do he did not know. A friend advised him to send the whole mass to the Treasury Department at Washington, and he did so. This was several weeks ago, and not a word did the old man hear of the money until a few days ago, when he received a draft for $250 from the Treasury Department, and a letter stating that as much only had been saved out of the $500. Two girls in the Department were at work seventeen days sorting, picking and pasting, and had finally succeeded in getting $250 so that it could be recognized.

So certain are the Californians that the problem of aerial navigation has been solved by the machine that has just been invented in San Francisco, that one of the papers positively announces: "Within four weeks the aerial steam carriage, capable of conveying six persons, and propelled at a rate exceeding the minimum speed of thirty miles an hour, will wing its flight over the Sierra Nevada on its way to New York and other remote parts." This announcement was made on June 26, and we may, therefore, soon look for the appearance of the great aerial steam carriage. When we see it, we shall begin to believe that the San Francisco paper knows what it means by saying: "Within a year we shall travel habitually to New York, Europe and China by aerial carriages."

A pleasant story which does credit in a small way to woman's honesty has come to light. In 1866 a southern lady spending the summer at the North became interested in a poor seamstress. Sewing-machines were not so attainable as they are now, and the lady bought one for her protegee, telling her that she might pay for it in time if she chose. Nothing was heard from her till the way when the benefactress came North (in the condition of many refugees) almost penniless. To her surprise she found the money for the sewing-machine in the hands of a friend waiting for her, and it formed a grateful addition to her funds. Trust in the poor is not always basely rewarded.

Labor.

No great man can be an idler. The world is teeming with work for us all, and no one can do that which God has given another to do. We seek amusements to pass the time away, when every hour is crowded with human destinies, and we have not one moment to waste. The seconds of time are the woofs of eternity—a moment mis-spent and there is a flaw in the web.

We must work. Not all be reapers, not all gleaners; but all may do something. Day after day humanity is stretching out her hands for help, poor erring souls going down to ruin, because men and women love self more than God. You who lounge on luxurious couches, who boast of your lilly-hands, tell me what those hands ever did for others? The poorest day laborer who walks the streets is greater than you. Not all kings wear royal robes or sit on thrones; and he is far more kingly and noble, who earns his bread by the sweat of his brow than he who wraps about him his purple and fine linen, and boasts of his millions.

We hear so much of "gentlemen" now-a-days. What constitutes a gentleman? Is it fine broad-cloth, glossy beaver, immaculate kids and dainty cane?—or is it a pure, unselfish heart and a soul rich with blessed deeds? Better a royal soul than royal robes; better hands that labor made brown, than those that idleness had made white. The crown that earnest toil brings, is better than treasures of silver and gold.

SPECIAL NOTICES.

The World Grows Wiser.

The human stomach has been a shamefully persecuted organ. There was a time when for every dereliction of duty it was punished with huge doses of the most disgusting and nauseous drugs. In vain it rejected them, and (literally) returned them upon the hands of those who administered them. They were forced upon it again and again, until its solvent power was thoroughly drenched out of it.

The world is wiser now than it was in that drastic era, when furious purgation and mercurial salivation were what Artemus Ward would have called the "main holt" of the faculty, in cases of dyspepsia and liver complaint.

The great modern remedy for indigestion and biliousness is HOSTETTER'S STOMACH BITTERS, a preparation which has the merit of combining a palatable flavor with such tonic, aperient and antibilious properties, as were never heretofore united in any medicine.

It has been discovered, at last, that sick people are not like the fabled Titans, who found prostration so refreshing that, when knocked down, they rose from the earth twice as vigorous as before. When an invalid is prostrated by powerful depleting drugs, he is apt to stay prostrated; and the debilitated being aware of the fact, prefer the building up to the knocking down system of treatment.

HOSTETTER'S BITTERS means the requirements of the rational medical philosophy which at present prevails. It is a perfectly pure vegetable remedy, embracing the three important properties of a preventive, a tonic, and an alterative. It fortifies the body against disease, invigorates and re-vitalizes the torpid stomach and liver, and effects a most salutary change in the entire system, when in a morbid condition.

In summer, when the enfeebling temperature renders the human organization particularly susceptible to unwholesome atmospheric influences, the Bitters should be taken as a preventive against epidemic disease.

PAIN KILLER.

MANHATTAN, KANSAS, April 17, 1866.

MESSRS. PERRY DAVIS & SON,

GENTLEMEN:—I want to say a little more about the Pain Killer. I consider it a very valuable medicine, and always keep it on hand. I have traveled a good deal since I have been in Kansas, and never without taking it with me. In my practice I used it freely for the Asiatic Cholera in 1849 and with better success than any other medicine. I also used it here for Cholera in 1855, with the same good results. A. HUNTING M. D.

I regret to say that the Cholera has prevailed here of late to a fearful extent. For the last three weeks, from ten to fifty or sixty fatal cases each day have been reported. I should add that the Pain Killer sent recently from the Mission House, has been used with considerable success during this epidemic. If taken in season, it is generally effectual in checking the disease.

The Rev. R. H. Griffith announces the time for the re-opening of his school in to-day's issue. Mr. G. as a scholar, gentleman and teacher, is so well known in this community as to make the announcement looked to with interest. If his patronage is according to his merit, we will have more scholars than he can teach.

DR. JOHN WILSON, JR.—For some time it has been our intention to press the claims of this scholar and gentleman to a higher standard of appreciation. The Dr's ripe scholarship, experience and power of instructing and disciplining youth, entitle him to a higher place in the educational world, and any College should deem itself fortunate in securing him to fill a Chair. The Trustees of Davidson would do themselves credit and the College a benefit if they would elect him to the Professorship of Latin at their next meeting.

☞ See notice of property to rent. This is a very desirable place, and to any one who would like to keep a few cows or raise vegetables for market offers great advantages. There are six acres of land now in a high state of cultivation; a good orchard, with an abundance of excellent apples; a fruitful garden and a well of pure and cool water in the yard. The house is not attractive *outside*, but the internal arrangements are convenient and comfortable. It contains five rooms and out-buildings for a good sized family. The property is just opposite the Female College and within 15 minutes walk of the public squire. It will be rented with the growing crop, and two cows either sold or hired with it. Possession given to suit the renter.

This proclamation is published in yesterday's issue of the Governor's organ, the Raleigh *Standard*.

In the proclamation the Governor declares it his duty to protect the interest of the State in this Company.

ROCKBRIDGE ALUM SPRINGS, VA.,

OPEN MAY 15th.

This favorite and celebrated summer resort is now in complete order for the reception of guests.—Some important improvements have been added to the buildings since the establishment passed into the hands of the present proprietor, and it is his purpose to keep it in a style not surpassed anywhere in Virginia.

The remarkable medicinal and curative power of the water is well known to the medical profession and to the springs going public. As an

ALTERATIVE, A DIFFUSIVE STIMULANT, AND TONIC

There is no known mineral water equal to it. In all anœmic conditions of the system, and broken down states of the constitution, loss of appetite, and general nervous prostration, its powers and virtues as a restorative may be safely pronounced to be without a known rival among the mineral waters of the world. They are especially unequalled in the above class as ailments peculiar to the female constitution.

The Proprietor will have provided for the Lawn and Ball Room a first-class BAND OF MUSIC, and in general, all the sources of amusement and recreation, usually found at our best summer resorts, will be at the command of the guests at Rockbridge Alum.

The place is within two hours of Richmond, Washington, Baltimore, Lynchburg, by RAIL. ALL IN DAYLIGHT. Passengers leave the cars of the Chesapeake and Ohio Railroad at the depot of Goshen, and new and elegant stage coaches convey them easily over a smooth and level road at only one dollar per passenger, return at the option of the passenger.

The Rockbridge Water, put up in cases, containing ALL its medicinal qualities can be had at the well-known Drug houses of

JOHN H McADEN, *CHARLOTTE, N. C.*

WILLIAMS & HAYWOOD, *RALEIGH, N. C.*

who will furnish on application, pamphlets containing the analysis of the water, and letters from eminent physicians, with a few certificates out of many of the wonderful cures made by these waters.

DEAR SIR,—In your paper of the 8th instant, where you were pleased to draw attention to the business of the National Life Insurance Company of the United States of America, the figures got into wrong positions in stating the number of policies at 4,179, the correct numerals were there, but they should have been placed so as to read 4,791, that being the number of policies issued by the Company previous to May 1st. CHEERING SUCCESS.

LARGE DIVIDEND OF INSURANCE.

The Piedmont Life Insurance Company, of Virginia, has

DECLARED A DIVIDEND OF FORTY PER CENT.

on its Life Policies, which have paid two annual premiums, and the same is available on such policies at next renewal to absorb loans, or reduce cash payments.

The dividend could have safely been larger, but with the

PRUDENCE AND CAUTION

which has ever guided this company, it has deemed it proper to hold a surplus beyond the reserve fund.

The company is now only in the *eighteenth* month of its active operation—yet

HAS ISSUED 3,000 POLICIES

which is a success really remarkable, and far ahead of any company of like period in America or Europe; while its handsome dividend shows the economy of its administration, and the

The last new addition to our different styles is attracting the admiration of both critics and populace. We mention specially, some of the claims of this new *Piano*. Believing the exterior should be as beautiful to the eye as melody to the ear, we have paid great attention to getting them up in a style that is conceded by all who have seen them to be the handsomest Piano-Forte made. They are an entirely new style, with four round corners, heavily carved legs and lyre, base richly moulded, and contains *our latest improved new style and action*. The tone is melodious, and its adaptability to passages of every shade of expression, from the softest murmur, the Crescendo and the FF, gives the performer every advantage of the *Concert grand*.—Price $600. PARLOR HEATERS,
COOKING STOVES,
COOKING RANGES,
HOT-AIR FURNACES, &c

S. B. SEXTON'S CELEBRATED

PATENT BALTIMORE PARLOR HEATERS AND GAS BURNERS,

for Anthracite or Bituminous coal, have been in successful operation for the last ten years, and have proved to be the best Fire-place Heaters manufactured and put in operation. They are getting to be generally used, often in the place of furnaces, for heating the lower and upper rooms in dwelings and offices. Two or three Stoves heating the largest dwellings, and besides, are quite ORNAMENTAL and ILLUMINATING, having all the beauty and cheerfulness of an open grate-fire, but are more ECONOMICAL, CLEANER, and RADIATING A LARGER AMOUNT OF HEAT. We can refer to thousands of families who have them in use.

We manufacture our own COOKING STOVES, and we guarantee them to be equal to any sold for *baking and cooking*. We have Stoves to take in *long wood* and with *large ovens*, and are *superior Stoves for baking*. We are getting out some new patterns of Cooking Stoves, that will burn *Bituminous coal, hard coal, or wood*. They will have a beautiful finish, and will stand among the No. 1 Cook Stoves. Our Cooking Stoves are Baltimore made, and we guarantee the plates. Our Cooking Ranges are pronounced the best and cheapest in the market. Baking of all kinds can be done in our Ranges as quickly and equally as well as in a Brick oven. We will manufacture S. B. SEXTON'S new patent Hot-Air Furnaces, warranted to burn from 30 to 70 hours with once filling.

Thankful to our friends and the public for their past favors, we solicit a continuance of their patronage.
